

WINDOWS & SIDING

WINDOW & SIDING SPECIALISTS • PROFESSIONAL ROOFING

Although General's Renovations carries various brands of windows and doors... skilled installation is "Key" to the longevity and performance of your investment.

Working closely with our manufacturers, General's Renovations offers many combinations of windows, doors and siding with "exact" color matching for every application of your home.

Offering high attention to detail, above and beyond most siding projects. We offer many different application techniques and colors to make your home truly unique on the street.

Due to the ever increasing energy costs, properly installed windows and doors can have a dramatic effect on your overall energy costs.

1. Current licences & insurance.
2. WSIB clearance.
3. Fall safety certification.
4. Written warranty.
5. Proper material application.
6. References available upon request.
7. Proven record of past successes.

Being in the Roofing business for many years, we discovered a need and a demand with current customers for professional installation of Windows, Doors and Siding to complete their exterior home package. So in 1994, we opened that chapter of General's Renovations with individually trained installers in each of these divisions.
